Production and R&D products in Jan. - Feb. 2024

ChemFaces is a professional high-purity natural products manufacturer, Our products are sold to research institutes, university laboratories, and research and development departments of enterprises and other scientific research units all of the world. Natural compounds have good biological activity, the scientists and scientific researchers use ChemFaces products found that most of the products have a very good research value and obtained very good scientific research results.

ChemFaces updates its product inventory every month, mainly with new additions and new batches. Because our products are unique for a long time. So we hope that our newly developed products can help the scientists and scientific researchers around the world.

For more information please refer to ChemFaces' official website (www.chemfaces.com).

Our Services

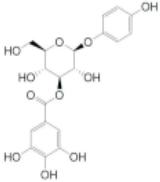

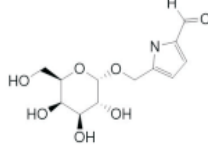

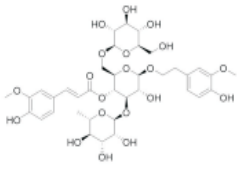

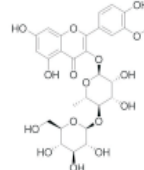

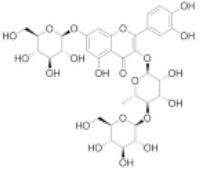

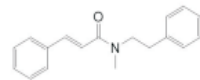

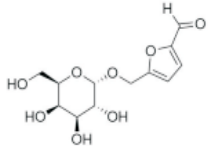

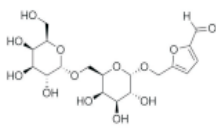

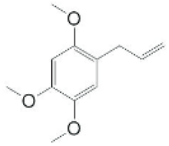

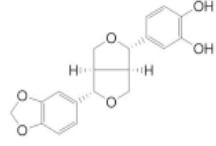

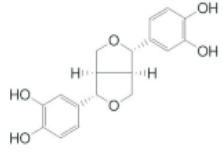

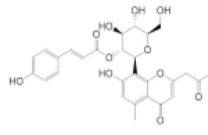

- Construct high-quality natural product library for drug research and development. More than 4000 compounds are available, many of them are our unique products.
- Provide reference substances and active components of Traditional Chinese Medicine.
- Provide more products of inhibitors in addition to a variety of screening libraries.
- Provide isolation and structure determination of natural products.
- Contract research, contract manufacture and process development services from lab scale, pilot scale to commercial scale.

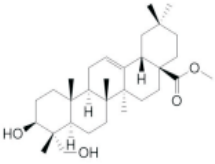

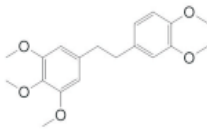

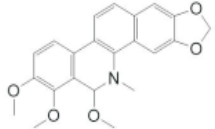

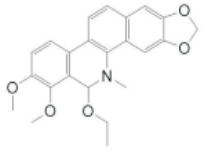

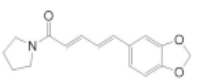

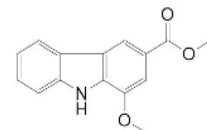

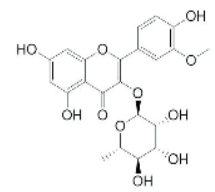

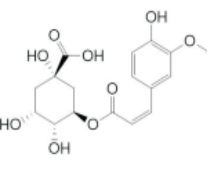

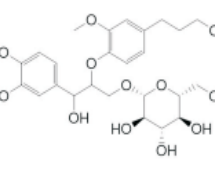

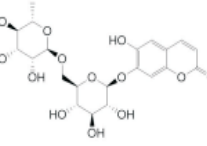

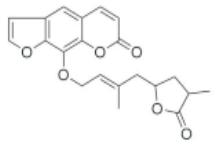

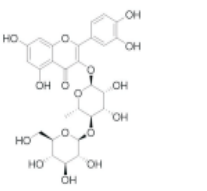

Quality & Validation

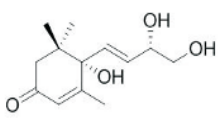

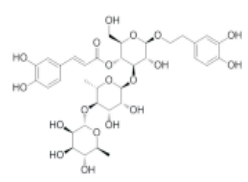

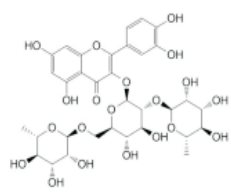

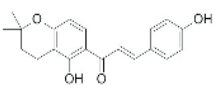

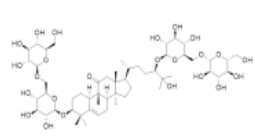

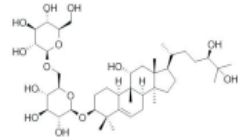

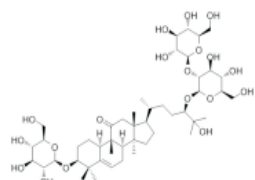

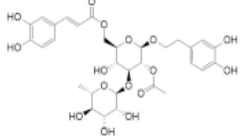

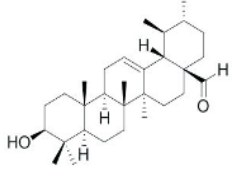

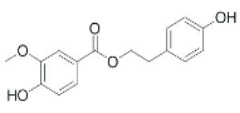

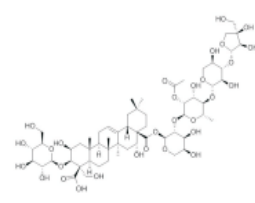

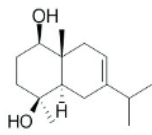

ChemFaces Natural Products pay careful attention to the purity and stability our products. We can provide the chemical test data by NMR, LC-MS, and HPLC. If you are in any way unsatisfied with the quality of our products, we will unconditionally refund or replace the products in question.

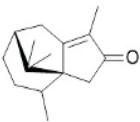

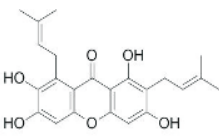

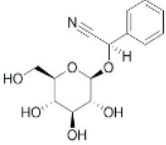

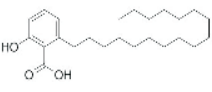

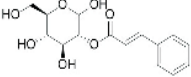

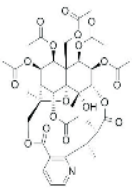

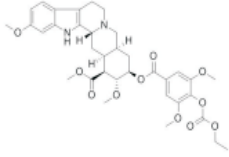

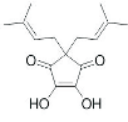

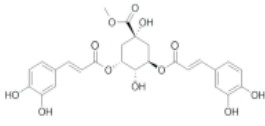

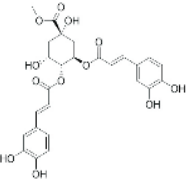

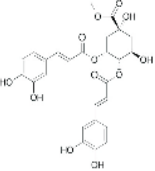

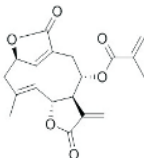

Tech Support

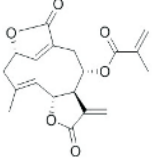

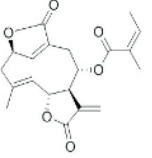

ChemFaces helps our customers use the products to their full potential. Our team is dedicated to customer satisfaction and you can expect helpful advice on all aspects of our products when you Contact Us. (service@chemfaces.com)

Inventory & Packing

ChemFaces's compound library has more than 4000 different kinds of natural products for you to choose from. We provide separate packaging for various specifications and combination packaging for series compound. We can also provide custom packaging, such as the standard 96-well plates, 384 - well plates, etc.

ChemFaces is located in the Wuhan. Its product quality management system is certified with ISO 9001:2015 standards. The featured products are natural compound for life science research.

The Detection Department is responsible for managing the product quality control of all the natural products. All ChemFaces products are inspected by a three-level quality control system, including raw-material QC, semi-finished product QC, and end-product QC. We pay careful attention to the purity and stability of our products. We can provide the chemical test data by NMR, LC-MS, and HPLC.
