

# Top 100 Products

## Trusted by 10,000+ Researchers Worldwide

Developed and validated with real experimental workflows in mind, these are the Abbexa products most frequently used across Western blot, IHC, flow cytometry, and ELISA. Selected for performance in complex biological samples, they reflect what works, not just what looks good on paper.

### Reviews from Researchers

*"We have used Abbexa's ELISA kit to detect the caveolin-1 levels in human plasma. I have done the same experiments with different kits from other companies, but I found Abbexa's has the best sensitivity and specificity of all. We're going to use Abbexa's ELISA kit to finish our whole study with over 400 subjects. Thank you, Abbexa!"*

*"Excellent antibody [Syndecan 4 (SDC4) Antibody] by Abbexa! It recognizes a single band at 28 kDa. We compared a lot of anti-Syndecan 4 antibodies and Abbexa's one was the only one that works without any problem."*

**– Researcher at the University of Cambridge**

*"Abbexa's Mouse Cyclin Dependent Kinase 1 (CDK1) Protein arrived very quickly. We used it for a protein-protein interaction assay that performed exactly as expected."*

## About Abbexa

Abbexa is a dedicated worldwide supplier of laboratory consumables. Our mission is to exceed the highest standards of quality and service by offering unrivalled expertise and validated products that produce reliable, reproducible results every time. Our catalogue includes a wide range of primary antibodies, secondary antibodies, proteins, ELISA kits, and enzymes, as well as other kits and biological tools for use in research.

The company has two locations in Cambridge, UK, including a state-of-the-art testing and research lab, and offices in Houston, Texas, USA and Leiden, The Netherlands, to serve customers worldwide.

Customers can expect the highest level of support. When placing an order, Abbexa's expert technical team is on hand to assist with any queries. The team aims to respond to all enquiries within 24 hours.

## Our Locations

## Our Values

### Curiosity

Abbexa supports the importance of asking questions to learn, improve and innovate.

### Agility

Abbexa values time and aims to respond quickly and ship orders as fast as possible.

### Simplicity

Abbexa continually improves processes and procedures to create clarity throughout.

### Quality

Abbexa provides reliable, tested products for trusted, reproducible results.

## Your Science, Our Support.

Quality science needs quality support. Our technical team can:

1. Engage with you on a scientific level and understand your goals.
2. Help troubleshoot and refine your experiments.
3. Recommend the most suitable products for your needs.
4. Offer insights from firsthand experience and detailed, personally reviewed datasheets.

## Niche and Custom Products

Progress in science depends on curiosity and the willingness to explore the less-travelled paths. Supporting niche research ensures that valuable questions aren't overlooked, and that every scientist has access to the tools needed to turn new ideas into knowledge. This is why we support niche products and provide custom protein, peptide and antibody production services to meet your needs.
